SSC	DRRM MPL High school,Ongole	S.S.C	2015-2016	82%

TECHNICAL SKILLS

- C , C++ & Python
- Html & CSS

OTHER SKILLS

- Detail-Oriented
- Self motivated
- Well Organized
- Proactive

PROJECTS

Fingerprint Authentication System:

Description:

Fingerprint authentication or scanning is a form of biometric technology enables users to access online services using images of their fingerprint. The biometric scan commonly relies on mobile and other device native sensing technology, as this has all but eclipsed software, third-party biometric algorithms. Some fingerprint scan solutions are architected in a decentralized model such as FIDO that ensures a user's fingerprint template is secured on the user's device. Here, a user's fingerprint scan is verified locally against itself, a token is sent to the service provider, and access is granted. The biometric authentication takes place locally, and the biometric data itself is not stored at the service provider (true secret).

HOBBIES

- Listening music
- Curious to learn new things
- Travel

PERSONAL PROFILE

- Father Name : D. Balakotamaraju
- Address : Pelluru (v),Ongole (M),Prakasam (dist), AP- 523272
- Date of Birth : 23/09/2001
- Marital status : Unmarried
- Gender : Female
- Nationality : Indian

DECELERATION

I hereby declare that the details above are correct and true to the best of my knowledge.
